Students and staff soaked up the entertaining, but informative presentation about Cyber Safety for 100 minutes in the school Library. Susan McLean's wealth of knowledge, and her straight talking, meant that everyone learnt some new information, had a few laughs, but also took home some serious messages and ways to stay safer, hopefully, making some changes to security settings on devices.

The Year 7 students joined many other Year 7’s in Mount Gambier for a session directed to their age group. Susan also ran a very successful workshop with parents and community members at the Port MacDonnell Community Complex. The school newsletter will continue her good work by running some helpful tips in the newsletter each week. See back page. The youtube videos used in her sessions were an anti-bullying song by Unkle Adams and a short movie called ‘Creepy Simon’. Parents may like to download these clips and view the message your children received.

What the students thought ...

’Susan’s presentation was really enjoyable. She didn’t make the sites sound terrible and try to make you shut them down, she made you very aware of how easily you can be trapped into being a victim. You can easily protect yourself from that happening if you set up your accounts properly’ ...

I learnt that Kik was one main site that sex predators go on’ ...

‘I did not realise how easy it would be for somebody to find my information on the Internet. It is very scary when I realised that random people could know my information’...’I found out that you aren’t allowed to go on ‘Kik’ until you are 17 years old. I also learnt that you only have to be 13 to have a Facebook account’ ...

Year 10 Girls TAFE Course

I very much enjoyed the Tafe Course on hair and beauty and I have learnt lots of new tips and tricks for doing hair and make up. By Tasha.
It was great being able to get tips on make-up and hair. Being able to use different products and brands was good. By Grace.
I had fun learning about how to apply make-up different ways and learning about different products to use for hair and makeup. By Jayde.
I really enjoyed having a play around with the makeup, and also I enjoyed learning how to do the hairstyles. By Cynthia.
I really enjoyed going to Tafe and learning all the different things that we went through, like how to do manicures and learning how to braid. By Tomae.

Meals On Wheels

At Allendale East Area School, we are encouraged to give back to our Community. For the Year 10 boys, it meant spending 3 hours a week at Meals on Wheels in Port MacDonnell.
We learnt how important it was for the people who receive these meals to get a quality meal. For many its' the only hot meal they get, so a balanced diet in something that needs careful planning.
Safe food handling practices are a major part of the daily routine for all the volunteers. This involved different cutting boards for different types of food and also personal protective equipment like hairnets and gloves.
It was a rewarding experience, as we felt like we made a valuable contribution to the local residents who received the meals we cooked. By Dale Williams and Christopher Sylvester

INTERNET SAFETY TIPS FOR PARENTS AND CARERS

All Internet enabled devices (iPad, phone, iPod, Xbox) SHOULD be in a common area of the house. NOT IN THE BEDROOM! Need an alarm - Buy a clock radio!
